EDUCATION

North South University

Bachelor of Science in Computer Science and Engineering, Major in AI

Dhaka

July. 2020 – Dec 2025

Agricultural University Collage

HSC–Science

Mymensingh

2019

EXPERIENCE

Artificial Intelligence Research Assistant

May 2024 – Dec 2024

North South University

Dhaka

- Contributed to research and implementation of deep learning models, including CNN-based architectures (e.g., DenseNet), for image classification tasks
- Performed data preprocessing, feature engineering, model training, hyperparameter tuning, and evaluation using Python, TensorFlow/Keras, and scikit-learn

PROJECTS

News Portal Web Application | *php, laravel, Bootstrap, SQLite*

Ongoing

- Currently developing a full-stack news portal web application inspired by modern online news platforms
- Implemented category-based news filtering and dynamic article management using Django framework
- Designed responsive and user-friendly UI using Bootstrap for better cross-device experience
- Continuing development on admin panel and content management features

Foodle (Food Ordering Delivery Platform) | *React, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS*

- Built a full-stack food delivery web application with restaurant listings, food browsing, and ordering system
- Developed RESTful APIs using Node.js and Express.js to manage food items, orders, and user interactions
- Implemented MongoDB for storing restaurants, menu items, orders, and user data with full CRUD functionality
- Integrated Firebase authentication for secure login, registration, and user session management

Skin Lesion Classifier (AI Web App) | *Python, TensorFlow/Keras, DenseNet201, Streamlit, NumPy*

- Built a deep learning application for skin lesion image classification using DenseNet201
- Implemented an end-to-end pipeline covering data preprocessing, model inference
- Deployed the application as an interactive web app for real-time image classification

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (MySQL), JavaScript, HTML/CSS, R

Frameworks: React, Node.js, Flask, Laravel, Bootstrap, FastAPI

Developer Tools: Git, TravisCI, Google Cloud Platform, Visual Studio, PyCharm, Eclipse

Libraries: pandas, NumPy, Matplotlib
